Breast Imaging
Satellite Course "Pearl"

April 2, 2016
Davos, Switzerland

PEARL
BREAST
IMAGING

**Satellite Course is in conjunction with the 48th IDKD 2016
on Diseases of the Brain, Head and Neck, Spine**
Preliminary Program

Scientific Program

Breast Imaging
Satellite Course "Pearl"

P E A R L

B R E A S T
I M A G I N G

Duration
Saturday, April 2, 2016   09.45 – 18.00

Target Audience
- Radiologists
- Radiology residents and fellows
- Interested clinicians, especially gynecologists
- Radiology technicians with advanced competences/interests

Course Objectives
1. Teach the participants effective approaches in analysing diagnostic imaging challenges in breast disease
2. Allow participants in guided self study to recognise key imaging features of various breast diseases
3. Teach participants in which setting which imaging examination is most effective
4. Offer participants to interact with top international experts in the field of breast imaging

Course Principles
Workshops with short introduction to the topic followed by case-based interactive discussion with the audience. Each participant attends all workshops.

Workshops

1. **Mammography: Subtle Signs of Malignancy and Other Challenges in Daily Practice**
    Michael Michell, UK

2. **Mammography: BI-RADS Update and Tomosynthesis**
    Elizabeth A. Morris, US

3. **Breast Ultrasound: BI-RADS Update and Imaging Pathologic Correlation**
    Alexander Mundinger, DE

4. **Breast MRI: An Update on Guidelines and BI-RADS**
    Lale Umutlu, DE

Highlight Lecture

Contrast-enhanced Digital Mammography
Elizabeth A. Morris, US

Breast Imaging Satellite Course Advisor
Rahel A. Kubik-Huch, CH

CME Credits
An application will be made to the EACCME® for CME accreditation of this event.
