An Interactive Course in Diagnostic Imaging

## IDKD offers interactive, organ-based teaching workshops with annually changing topics.

IDKD looks back at 50 years of excellence in radiology teaching using the best imaging specialists. In 2018 other IDKD courses will be held in Switzerland, China, Brazil and Greece.

### Some additional information about IDKD Intensive Courses

---

- IDKD – Diagnostic Imaging Courses – provides education for medical Imaging specialists and others interested
  - IDKD courses focus on organ systems and are interactive
  - IDKD courses consist of 14 workshops lasting 75 minutes and are held by top radiology experts in groups of 50-60
  - IDKD workshops consist of an introduction to the topic and the interactive presentation of cases
  - IDKD case material is analyzed by participants and then discussed with the teachers
  - IDKD participants bring their laptop (PC or Mac) for individual case viewing
  - IDKD offers access to a case database and to the current IDKD books
  - IDKD courses feature 4 – 6 highlight lectures on topics of new developments in the field
- 

Course participants are encouraged to download and get familiar with the viewing software on their computers prior to the course from [www.idkd.org](http://www.idkd.org) / [General Information](#) / [IDKD Software](#)
